This is what you wanted *this* is what they all wanted  
you must have wanted the most

Evaporation of Substance *pop*

Suspension suspended

Su    spen    ded

Sus                      spend                      dead

a biological gift from god

Who wanted this?  
u wanted this.

O jesus, you're talking to yourself                      your (possessive) self

Jesus. jesus? JESUS!

I'm nothing & there gone  
Their    gone

Add to list of shortcomings:                      A lack of radiating thermonuclear fusion

Gravity you never looked so-sweet  
Keeping my thoughts grounded  
O how I miss *you*
