

Most of the interesting art

Most of the interesting
art of our time
is

boring

said Susan Sontag.

But that does not mean that most of the
boring

art of our time
is interesting or that most of the uninteresting
art of our time
is not

boring.

It does mean that some of the interesting
art of our time
must be

boring.

And it probably means that some of the
boring

art of our time
is interesting
though it' s unlikely that some of the uninteresting
art of our time
is not

boring.

We can rule out the prospect that none of the interesting
art of our time
is
boring
though there' s a microscopic chance that none of the
boring
art of our time
is interesting
or that none of the uninteresting
art of our time
is not
boring.

There' s a 100% chance that most of the
art of our time
(and any time)
is
boring,
which everyone knows even if they' re not
Susan Sontag
(who was often quite
boring.)
