

365 days
For Jeff, my love

Fast-forward
From dubstep to Del
Inspired by a rock
Who became my teacher

I came without a plan but was guided by
Dry hands
Anchoring this once sinking ship

In the heat of the moment,
Almost too easy to walk away
Almost.
Two strangers introduced by friends
Who are now strangers
As the shitty parts of life
Slap us in the face
Strength
To change/grow/mature
Into the person you deserve to love

Selfishness overpowering honesty
FORGIVENESS
Reminiscing on the comfort of being
Alone...

Yet home stares you right in the face,
smiling.

Mistakes made
Memories lived
Making every moment
Together count.
As time slips though hands like
water;
Never able to hold onto it
Yet pruned fingers are reminders it was once
In your grasp.
